Summary: In 1980 the Hebrew university officially announced that the anointing oil contains cannabis; it can also be found in all other spiritual books globally, so cannabis is a holy plant.

Cannabis information within all religions; to be religious infringement globally

Now considering how much trouble some of these clubs and peoples are having with cannabis being used for medical purposes again as God intended, and as it was used throughout the Bible.

We feel this is the missing part of our society that it is not holy and this should be made more public again as should be.

Now Cannabis is not what they call an intoxicant as it joins to the Cannabinoids as a natural process of nature.

Now within the anointing oil in the Bible this was officially announced in the Hebrew University; yet is observable in any Strong's concordance or lexicon as the word is not translated i.e. Kaneh bosom.

This is also the case in the Quran, yet only verified by me, so far yet it is the only one in which the miss translation had been put into the bible as we see.

As with this being the case the oil in the Bible made correctly and holy.

It is far better than cannabis alone as most of the other parts also heal and anoint. It does say in Mark in the bible that disciples healed with oil and Christ's anointing. Christians means anointed ones, not a religion yet a way.

So instead of these being against us they need informing correctly that it is not all should be done in accordance as each ingredient is holy in each religion. In Hindu texts it is part of the soma and the ancient anointing oil.

In the Quran there is the word Zanjabil = ginger and Kafur = Cannabis as it is known for growing cannabis as was Canna in the bible.

Also they put henna is sweet and aromatic which it isn't to taste, yet can be used on couches and discuss, it is recorded in the Quran.

In Shinto it is the holy plant and most items are made of cannabis and honey. The ancient also is made with cannabis.

So in most of these findings it can all be backed up.

Yet single handily, we are useless alone?

Yet as people who stand together and remind everyone life is precious and we are all ill and people who suffer.

If this is allowed back into society and back into being regal as it is the

the bible yet disguised as it is to anoint.

It makes a compound when mixed with oils as THC, the active ingredient at 12 in scientific research we did as of the lies taught in our society and in the religion yet wasn't sure until recently with more research, my sister so we have greatly gone depths as a family into this subject globally, an infringement that has to stop.

And so when in the anointing oil it heals many ailments and this is the miracle. Hope this helps all and please tell everyone as the sooner we stop this from making us as people on the whole.

As if Christ's being kings of the earth are in paranoia, as they don't realize their yolk, will be taken as spoken in Isaiah.

This is referring our yolk to our faith and so the faith drops if cannabis is used.

This must be intact for it to heal correctly as the mind is powerful deterrent to the rightful possession of authority and not closed mindedness to God.

Thinking they are sinning doing what God intended is where it goes wrong. Laugh which releases dopamine and so produce positive blood cells and so experiment and in this is the fault of it not being holy and fun.
