Another thing in regards to this topic, did you know that diesel fuel can be produced and done successfully.

Oil companies say it cost prohibitive yet, this is a crop that can be grown worldwide. and it's a renewable source and virtually non-polluting.

Ethanol (from corn, another renewable source) can and is in some countries. Why isn't this more wide spread? Good question. Any opinions?

Perpetual motion machines have been brought to surface many times (just to name a few) and I've got the same answers. Quote " We need to reasearch it further." Any kind of progress because there is nobody to back you because a system that runs inside a

God Bless
