Hi David, The issue of free will is complex. You ask why should we be given free will, then the bible tells us what not to do and what to do. The problem is the presence of good and evil. We need instructions as to what is a good path versus what is a bad path. From Adam and Eve eating the tree of knowledge, of good and evil. Which path to take when they did that,. Before that, there was only good. Now we have to have a choice. We have to know what is good and bad, to choose freely and rightly. That's the point.

The other planets that have not fallen, also have free will. However dualism is what we have on earth to look at, to see that; and understand what death, rape and murder are. However the tree of knowledge; of good and evil is on every single one of them. They can use free will to eat of it and become like earth is, if they want to.. So far so good. The tree is there, but all use free will not to eat from it, because if they do, the effects will start to manifest there. Who would want that, after seeing what it would be like!

Eve was lied to and tricked into eating from that tree by a higher power. And that's why we are given a second chance down here to do the right thing. We have to make DAMN SURE we get that second chance. Because our first parents lied to and tricked, about this whole issue of free will, good and evil, etc.

I realize free will can be manipulated and abused in an environment like ours. We need elders to help others along and just try to do the right thing, always. We have to make that much of a decision at least. I understand your concern, I have lived it for decades myself.. Hope that helps explain some of it..peace
