Even though we personally hate that name as it has nothing to do with us meaning Salvation in Hebrew, which then makes sense.

The only reference I know to the name Jesus in the Bible that is correct suppose to be a fake prophet in acts?

So why the name change I think it's another scam by the church to hide t

As in the books of zeceriih who they murdered it does say Yeshua, the v real name.

From all prophecy and just the way it is, it's like you have prison where there to reform and learn new skills, to improve their charcter.

Yet what has happened is the guards of the prison got greedy. They realised they could get paid for doing nothing and receive the bene So instead of leaving the book, which was supposed to help them find a v something higher then them, self's. They changed the book to have faith in the self's again, yet not just once out realising, do it again and again.

So what happens well the good get out early on good behaviour and get t

Yet the rest remain stuck in a prison that if the guards gave people the o something higher, to understand they were once free yet lost the way.

Then may be we could start reforming the prison bit by bit, yet to do this have unity whilst we have conflict separating the whole prison.

It is the guards best way of stopping us fixing the mess, yet the don't me doing what is best.

It's the warden who misguides them using their own egos to drive them to without realising so others accept it as the way.

So how do we fix a prison so big, well we start with love and kindness, b wrong it shows why, people shouldn't be that way?

Then they can begin to unite as their beliefs are the same, so they don't when they are not.

Then we need to exchange the guard system, it needs to be a democratic be in a prison.

That the prisoners are given responsibility, so they can help them selves better people.

That they don't want to destroy things as they make them, not that guard yet teaches them how to cope in the real world.

As they should know them self and if the guard isn't worthy it shouldn't b

I am sadly disappointed at the amount of guards I see that I know, preter leaving prisoners to be guards.

So lets get our act together we all know how, it is written on your DNA s you?

Your DNA is like a prison code that each of us has, this is also like a wo So you become a dynamic multi-transcendental Strand as each part of the security code to it is self, which can be pass by overcoming obstacles or the prison, in the first place for.

Hope that bit makes sense, as it is complicated what I am trying to say,

We are all Characters, in pages in the book of life.

You leave the book when you realise your role, with in the storyline of th the story, if you can and when you can.

A letter doesn't make a word though in its self unless it realises somethi Y?

Y U?

Y I?

Y 1?

U C?

U R 3!

(Just playing the book is far more complex then that, ancient Hebrew or start, Chinese and Japanese also, any pictographic writing.)

If people want to take for them self's, the judge will get them and they c their choice, this is the way of the prison

Yet people need to recognize this, yet the prison warden helped them for chance them remembering, by murdering anyone in the way.

So that because without fear there is nothing, for the prisoners to work t have been told they will be freed, yet by whom and for what?

They will be freed as a man was murdered by them, this doesn't make an rethink.

So yes you should fear, as if you are not responsible for every word, act prison the Judge is watching you all times on CCTV, so don't think you g

If you want to know why the judge doesn't help the prisoners always, well happen?

Would the prisoners reform?

So when the judge can the judge will pass on messages to the guards he not working or forgot they are guard as the fake guards have established them.

So rather than blaming the judge for not help you, you should be helping quicker on good behaviour.

Not spend your time writing letters to the judge asking for things, yet by prison, the judge will let you free.

People thinking once they get out of prison that's it they are free, yet if back in.

So this is the reality of what we live in, those who stay and return are still the prison making food and tending to other people needs.

Helping to make the prison a better place!

Yet the guards insist on trying to make us have an ego, like their warden like pass the parcel with no one realising.

You see by the warden getting us to be separate and not join he gets more guards, and less hope of us being released on good behaviour.

Because if you put any animal in a situation where it is trapped and control

So this how they use us to fight us, so how do we beat it? Be free of the

Don't rise to the bait, they taunt you with it is this way, they offer you to fight with them.

Some of these included:

"Come on he died for you, join us he is our God."

"Your sins are forgiven you and you will be ok, no matter what you do in his name."

Now in question to both of them when does a prisoner become a judge?

It doesn't you need a clean record to sit in a house of law.

How can a prisoner help you escape?

They don't it is the highest maximum security prison there is

So what can they do?

They can get out and personally go and talk to the judge and ask if he will take into account the fact that he knew them whilst in the prison and they did try to do it right.

This is all a prisoner can do, and does.

As trust me this is a court attendant talking and the final say always goes to the court.

It's like the defence giving the verdict, it would spoil the case as it would be a lack of respect of this court.

So who are we to judge in a prison we were put here we are no better than you are friends with someone on the outside as you are inside.

So what you going to do, fill your cell with tons of stuff or change your way of thinking and become a better person.

Then if you are lucky, the judge will be kind and move you from a harsh prison to a less harsh one, you understand why you are there.

Then when you are finally ready which for some of us can take a few sentences for recurring crimes that we are not aware would spoil everyone else's freedom.

Then we are finally get released and trust me we will throw the biggest party ever, we get more people as more seem to be in prison than released now a days.

Maybe we feel if we fix the guide book to the prison, they may understand.

We keep sending our court officials into the prison on missions many have failed.

Allot of the prisoner see it as a threat to give up the need for things in the community in there why would we need a TV and video in our cell?

We wouldn't we could mix with each other and give the prison a new lease of life, looking they may close the prison soon.

As it is non profitable and a lot of people just don't understand what the problem is, down to the prison guards not telling them why.

You see instead of these guards looking at individual cases they look at the whole prison.

They tell each one it need the same thing, they even sit them down in line and tell them as to save time.

Yet forgetting each one has a different problem, each one has a test they are responsible for.

Yet they don't see that, as they get money for sitting them in large groups with brain washing until they give in.

When they do finally believe that a prisoner will get them released and that because they murdered his now closer friend after what they put him through, the judge is not impressed as this means that they still don't understand the sentence.

Since whilst his friend was in there, he did tell them, that if they thought they were guilty then they would be guilty.

Yet as soon as the guards got rid of him for starting this community they thought they better stop it, before it took over their control of the prisoners' closest friends, who knew the most he taught.

Then to stop the general people, they told them the complete opposite and made sure this was passed down from prisoner to prisoner, so it was accepted.

Now it has gone on so long, everyone has forgotten the guards have this power.

Yet the prisoner on a mission, is back!!
