**Industrial Society Destroys Mind and Environment**

Dear Group Members,

I want to share my article with you. This is about the link between Mind and Environmental-Issues. The fast-paced, consumerist lifestyle of Industrial Society causes an exponential rise in psychological problems besides destroying the environment. Our Minds and environment are interlinked. Our Minds cannot be peaceful when attention-spans are down to microseconds and milliseconds. Our Minds cannot be peaceful if we destroy the environment.

Thank you,  
Sushil Yadav

Industrial Society Destroys Mind and Environment.

Subject : In a fast society slow emotions become extinct.

Subject : A thinking mind cannot feel.

Subject : Scientific/ Industrial/ Financial thinking destroys the planet.

Subject : Environment can never be saved as long as cities exist.

Emotion is what we experience during gaps in our thinking.

If there are no gaps there is no emotion.

Today people are thinking all the time and are mistaking thought (words/

When society switches-over from physical work (agriculture) to mental work (financial/ fast visuals/ fast words ) the speed of thinking keeps on accelerating and our ability to think and feeling thinking go on decreasing.

There comes a time when there are almost no gaps.

People become incapable of experiencing/ tolerating gaps.

Emotion ends.

Man becomes machine.

A society that speeds up mentally experiences every mental slowing-down

A ( travelling )society that speeds up physically experiences every physical  
Depression / Anxiety.

A society that entertains itself daily experiences every non-entertaining  
Anxiety.

FAST VISUALS /WORDS MAKE SLOW EMOTIONS EXTINCT.

SCIENTIFIC /INDUSTRIAL /FINANCIAL THINKING DESTROYS EMOTIONAL

A FAST (LARGE) SOCIETY CANNOT FEEL PAIN / REMORSE / EMPATHY.

A FAST (LARGE) SOCIETY WILL ALWAYS BE CRUEL TO ANIMALS/ TREES  
AND TO ITSELF.
