Ok the plan sort of goes like this...n ArticlesA forum post can be instantly made into a Wiki Page all you do is add ( [-[ ) around any word wiki page unless already done....So in the end we will have

1)ArticlesWorks by many of belief's idea's and things that help people...

2)Forum ConverationArticlAsy

3)Any word in them that may need explain.Wiki.can be added to the

The idea is to make clear levels...some bits need modifying alot and we you see if other instance that needs more clarity....

Can then be added into the wiki...these pages can.Wiki page can be by any of as and after these modification take place...

To make it that a wiki-page can go back to be published as an Article...s arrange...not they, as us, is them...say friend and things happenz...
