Every persons code is an expression of them self and each persons code
requirements they set that are not always necessary; yet show how they
Makes me wonder do some people add tons of extra functions in their ow

Anyways point just noticed was, yesterday tried to fix two major classes
cause didn't help when both went wrong in different ways...

Which makes me wonder if with educating children multiple classes at the
lesson a discombobulation (to confuse through situation) occurs, won't th
ongoing classes?

There are so many relative points in PHP code that will continue this, ju:
strange it is; that really you can never do two classes of major importanc
done it should be staggered in time, so you do the second class after the
absorbed, else you don't spot the differences from the first class and so
