From what I can guess, the photon belt is expected to pass over earth so as it hits the earth's atmosphere.

To many as these things were written, they had no concept of atoms and said fire.

The Quarn does state atoms though.

This when it happens will mean that atomic structure, loses its solidity with my limited scientific understanding.

Meaning that things can be reformed as they were, with slight improvement.

Rev 11:18 And the nations were full of wrath, and Your wrath came, and the dead, and to give the reward to Your servants the prophets, and to those fearing Your name, to the small and the great, ~~and destroying the earth~~ **and destroying the earth**

Amen To one true God, and one lord

Peace and Love B with U
