Funny you ask that.....

People who spend their time thinking upward thoughts, ie spirituality, mu

There ears usually are pointy, so they can catch more upper tone sounds
spiritual subject they use higher frequencies.

Where as people who discuss money all the time and low tone sounds ie

There ears start to have long lobes, as when you talk about money and o
use low tone frequencies.

So your lobes grow longer to catch the sound.

Funny isn't it, I originally realised due to tolkin, then I have studied mos
be correct.

One way to spot the sheep from the goats.

If this applies to you I am sorry, yet i have found this to be true, in all p

Yet if this does apply to you, you can change as when I have let money m
lobes do indeed get longer.

So I try my best to stay upward thinking and all ways listen to the bigger

My ears have now changed, so that I have smaller ear lobes and pointy e
