Cont'd -The determination of occupation---Religion is a very popular one programming, it is monitored similar to hospitals with charts being kept of According to how they respond to the torture, determines what kind of occupation they are aggressive, a future of being a general or an attorney or politician, if they are and mild, a job of religion is picked out, or running a day care center. "F

As these are satanists who run this program, they want to infiltrate all religions of their victims.. This means you could have a famous TV evangelist or any religious leader from God, etc; who has a satanic personality hidden inside. The two alters do not know about each other because trauma induced mind control creates alternate personalities and that's why they don't know about each other's. So you can have a religious leader like Yashua, then at midnight a trigger changes them into a satanic alter, then they sacrifice the baby to satan. After that's done, they are triggered back into the religious leader like Yashua during the day.. They don't know they just killed a baby to satan. This is built into the alters, so as not to expose them to each other's. This is why they are with, and it's why the pharisee mode is taught to the followers, and it's why they are on christian websites. We are dealing with satanists, who are christians, controlling and fracturing of the personality. Certain bible subjects trigger the personality to sit on the seat, to attack and destroy the truths we try to present. It's called conditioning and they do not remember, unless de-programmed.

This came from Nazi Germany.. "during the war, scientists, scholars, and psychiatrists had conducted advanced research in mind control". After the war, England found these scientists and documents of research; and continued this on.. This is still going on.

It's quite possible to have a president, a king or queen, and a prime minister like Brian Mulhoney, the prime minister of Canada, was one of these victims. Senators and congressmen are also from this program. It's possible Bush was by day, and a baby sacrificing satanist by night..

It's possible Wizanda is one of them.. He says that satan is real, then turns around and says satan is not real, but only ego.. This smacks of two alternate personalities. In his writhings, he often makes a point, then turns right around and denies the controversy! I really do believe Wiz, that you have at least two personalities. It's a monarch mind control victim or not. How would I know that? And you would not know without proper de-programming.. Somethings not right here.. This is a real
